## New bus shelter on Kilgobbin Road

Submission to Public Consultation

January 2025

Dear DLR Planning team,

Thank you for the opportunity to make a submission to the planning application made by the National Transport Authority for a bus shelter on Kilgobbin Road. I requested this new bus shelter on Kilgobbin Road previously and was very happy when the NTA said they would be submitting an application for it.

I have a number of points:

- The shelter should have seating
- The shelter should not use any LED lighting on any advertising panels as this is a residential area.
- The shelter should have a real time information panel. There are many older residents in this area who rely on the bus and a real time display would be very helpful for them.
- The shelter should have a green roof, to be compliant under section 12.4.14 of the County Development Plan, which I put in myself. It says "Taxi and Bus shelters should consider the incorporation of green roofs with pollinators". We also have to take into account our DLR Biodiversity Action Plan 2021-2025 when making these decisions.

Thank you for continuing to invest in bus shelter infrastructure in Stepside and our surrounding communities.

If you would like to follow up on anything in this submission, please feel free to reach out to me on [ooconnor@cldr.dlrcoco.ie](mailto:ooconnor@cldr.dlrcoco.ie).

Kind regards,

Councillor Oisín O'Connor
