

## Dundrum Electoral Area- Tree Care Programme 2025/26

The Tree Care Programme pertaining to the Dundrum Electoral Area is outlined below in two tables. The Remedial Tree Works is listed in Table 1 and the proposed Tree Planting is listed in Table 2. All requests to date have been included.

In relation to Table 1: Remedial Tree Works pertaining to 994 trees, (226 are removals), some of the tree works has been completed, and a large portion has been awarded to contractors who are currently working through various tenders (Black text on table). The work on our Parks staff works programme is indicated in green and the remainder (blue text) will be included on the next tender.

Condition surveys will be carried out in the coming weeks in Deerpark and Fernhill Park and Gardens which will give rise to further works.

The planting of 4,623 new trees (Table 2) is underway and will be completed by end of March/early April 2026 as part of the tree care programme – these trees range from small transplants to standard and specimen trees.

We are planning on carrying out community woodland planting at Wesbury on the edge of Clonmore Park where we have removed numerous dead trees recently and we also plan to involve the community in hedgerow planting in Cabinteely Park.

We will continue to place labels on the newly planted street trees to encourage the community to assist with watering the trees outside their homes which is essential to maximise the survival rates of these trees.

We will continue to work towards meeting the objectives set out in the dlr Tree Strategy 2024-2030 A Climate for Trees, this will assist us “to manage and develop our urban forest together for community well-being and climate resilience.” The urban forest must be sustainable and climate resistant and we need to work in partnership with the communities to ensure this is achieved. The annual work included in the Tree Care Programme significantly contributes to realising this vision.

### Table 1: Remedial Tree Works

Black text = works already assigned to contractor

Blue text= works to be included on the next tender

Green text = works on Parks Works Programme for direct labour
